

PROJECT: ISO

SUPPORTING DECISION MAKERS
WITH RELIABLE INFORMATION

A black and white photograph of a modern office interior. Three people are silhouetted against large floor-to-ceiling windows that offer a panoramic view of a city skyline. The office has a high ceiling with exposed structural elements and a polished floor.

ISO STANDARDS: A TOOL OF ENVIRONMENTAL MANAGEMENT

Support of ISO 14001 implementation

Country: Poland
Region: different regions
Client: Counseling company (subcontracting)
Year: 2015, 2016
Duration: 1 Month
Value: - - -

Background:

ISO standards are well known and widely used by organizations of all sizes. A variety of branches in which ISO standards can be implemented, availability and continuous enhancement are reasons why they are in demand. However, each implementation requires detailed preparations - this also refers to ISO 14001 which defines ways of environmentally orientated management. It is crucial, at this stage, to identify all environmental issues in a proper way.

Scope of work:

Service was provided to the European counseling company active in the field of ISO advisory and focused on the identification of all environmental issues in every polish office premises owned by the analyzed international organization. Notably such aspects like waste managements, use of asbestos, water and wastewater treatment were considered.
